This catalogue includes only a partial number of the many species and varieties of alpine rock plants which we can supply, and, in case you do not find the plants you desire listed, kindly write us your requirements.

A careful perusal of our catalogue will enable you to make a selection of plants which will produce a profusion of bloom at certain seasons, or continuous bloom.

We strive to the best of our knowledge and ability to have our plants true to name, but cannot be held responsible in case mistakes sometimes occur.

We have a trained group of men, who are thoroughly experienced in the construction of rock gardens, and the building of planted walls, pools, and Japanese gardens.

**ESTIMATES GIVEN ON TREE MOVING
and ALL TYPES OF LANDSCAPE WORK**

TERMS OF SALE

Sufficient money must be added to order to cover cost of postage. Our terms are strictly cash, but we will ship C.O.D. provided 25% of the amount of the order is remitted.

Plants leave our nurseries in fine, healthy condition. All plants are inspected and carefully packed according to the best methods to insure safe transportation.

We cannot be liable for cases of failure due to transportation or other causes.

No complaints will be considered that are not made within ten days after receipt of shipment.

GARDEN CLUBS

Garden Clubs are cordially invited to visit our rock gardens and view our Japanese Garden. Kindly have your Garden Club reserve a day for their visit at least a week in advance in order that our staff may be at your service.

**THE PERFECT
GARDEN LABEL**

Ordinary lead pencil markings on these labels are permanent. The material is indestructible. The beautiful gray-green color blends perfectly with foliage, soil and rocks. They should be set deep in the soil with only the marking space showing. Thus they are inconspicuous.

Tie-On labels are supplied with copper wires in convenient bundles ready bent for attaching.
